CHRISTMAS DOMINOES

Objective: Be the first player to run out of tiles.

1. Setup
- Cut out all 28 tiles along the outer lines (printing on cardstock or laminating is recommended).
- Place all tiles face down on the table and shuffle them.
- Deal: 7 tiles per player for 2 players, or 5 tiles per player for 3 or 4 players. Place the remaining tiles face down to the side (the boneyard / draw pile).

2. How to Play
- Starting the game: The player with the highest double tile (e.g., double Santa) starts by placing it in the center. If no player has a double tile, the youngest player starts by placing any tile in the center.
- Turns: Taking turns clockwise (to the right), place a tile at either open end matching the same image (Santa with Santa, tree with tree, blank with blank, etc.).
- Double tiles: Tiles with two matching pictures are placed crosswise (perpendicularly).
- If you cannot play: Draw one tile at a time from the boneyard until you get a playable one. If there are no tiles left in the boneyard, say "Pass."

3. Who Wins?
- The first player to place all their tiles wins.
- Ending the game: If no one can play any more tiles and the boneyard is empty, the player with the fewest tiles left in hand wins.
